## WASHINGTON STATE UNIVERSITY

### WOMEN'S BASKETBALL

Each year as basketball teams across the country begin a new season, there are expectations and excitement about what lies in front of them. Now, more than any other time in the history of Washington State Basketball, those expectations and excitement are reaching new heights.

The potential and talent that is a part of Cougar Basketball today is the direct result of the building and creating that has evolved over our past four seasons. A culture and philosophy of commitment surrounds every aspect and every individual that are a part of our program. That commitment, combined with the athletic and academic resources of a world class university like Washington State, gives us the foundation necessary to attain success in every way possible. As a student, an athlete and as an individual, our athletes are in a position to achieve their goals like never before.

The group of players that you'll read about in this guide are taking advantage of the special opportunities that are available to Cougar athletes. From our seniors, who we signed in our first season here at WSU, to our highly regarded freshman class, each and every one of them are poised to set new standards in the classroom and on the court. I hope you'll take a close look at Washington State and Cougar Basketball. I think you'll like what you see!
